

Common Council Blood Curdling Hear Committee Story of Attempt Of Business Men To Kill Remus

Who Request Aldermen to Recommend Placing \$5,000 in Budget to Underwrite Firemen's Convention—Award Contract for City Hall Trusses—Seek Increase of Aldermen's Salaries—Other Matters.

Hearing a delegation of business men urge the placing of \$5,000 in next year's budget to cover the expenses of the firemen's convention in Kingston next June; favoring the adoption of Local Laws Nos. 2 and 3 of 1927, increasing the salary of the aldermen to \$350 and that of the alderman-at-large to \$700 per year, and awarding the contract for the five steel roof trusses to be used in the reconstruction of the city hall to the Hudson Valley Bridge Company whose bid was \$1,130 delivered on the ground, were the more important matters considered at the regular monthly meeting of the common council held Tuesday evening in the Municipal Building.

Award Truss Contract.
Five steel trusses are to be used in the reconstruction of the roof of the city hall and at the suggestion of the architects the common council had decided to ask for separate bids on such trusses. Tuesday evening five bids had been received and the aldermen went into executive session with the city hall architects to consider the bids, and at the close of the session awarded the contract to the Hudson Valley Bridge Company through its local agent, A. H. Malley of the Ulster Foundry Company, whose bid was \$1,130 delivered on the ground.

The four other bids received were from the Kingston Scrap Iron & Metal Company, \$1,035 f. o. b.; West Side Structural Company of Troy \$1,340 delivered; and the C. D. Moore Company of Kingston, \$1,175 delivered.

It will likely take several weeks before the steel trusses can be forged and delivered to the job.

Mayor Dempsey Quotes Figures.
Mayor Edgar J. Dempsey said that as the time for preparing the budget for next year was drawing near he desired to call the attention of the aldermen to some figures which had been made available before in a budget. He then called attention to the \$5,000 salary for the mayor, the \$5,000 that it was recommended giving the firemen's convention, slightly over \$8,000 for increased street lighting, between \$6,000 and \$8,000 interest on bonds that will have to be issued to defray the expense of the reconstruction of the city hall, and \$4,100 to cover the cost of installing a proposed traffic signal control.

Mayor Dempsey also stated that the board of public works would have to have \$70,000 for current expenses and that amount would also have to be included in the budget. This amount was needed at this time to defray current operating expenses and was in reality an accumulation of many years. The mayor said he thought it wise to bring these matters before the council at this time so that they would know what had to be included in the budget in addition to the regular amounts raised by the various boards and city departments.

Wants to Transfer Franchise.
A petition was read from Stanley Longyear, operating the Kingston-Woodstock bus line, asking permission to transfer his franchise to the Woodstock-Kingston Bus Corporation, and that a public hearing be held in the matter. The council granted the application for holding a public hearing and the date will be fixed later by Mayor Dempsey.

B. P. W. to Borrow \$70,540.
The board of public works sent in a communication calling attention to the fact that \$70,540 was needed for current expenses and asking permission of the common council to issue bonds or notes to raise the money needed. The council unanimously granted permission.

Increased Salaries.
Alderman Moore introduced Local Laws Nos. 2 and 3 of 1927, which fix the salary of the alderman at \$350 per year and the salary of the alderman-at-large at \$700 per year. At present the aldermen receive \$120 per year and the alderman-at-large \$300. The laws were referred to the laws and rules committee and a recess was taken to give the committee an opportunity to report.

Later the committee reported that the laws were correct as to form. The report was adopted and two readings were given the proposed laws.

The two laws must now lie on the desks of the aldermen for a period of seven days before they are taken up for the third and final reading, at the close of which they are sent to the mayor who fixes the date for holding a public hearing on the laws.

Upgraded Water Bills.
The water department sent in a list of water tax delinquents and asked that action be taken, but what action they desired taken was not stated in the communication. For that reason the list was referred to the city treasurer to take whatever action was deemed necessary.

Owners of Colliding Auto and Motorcycle Allege Negligence Caused Accident and Ask Jury to Fix the Blame.

The negligence action brought by Dr. Frank W. Terwilliger of Highland against Mr. and Mrs. Alfred E. Munch of The Bronx to recover damages growing out of a collision between the Terwilliger Ford car and a motorcycle owned by Mr. Munch and driven by Mrs. Munch was continued all Tuesday afternoon in the Supreme court and this morning was concluded and sent to the jury at noon. Mrs. Munch, who at the time of the accident was Miss Pugh, testified that she had been on a motorcycle trip through New England on the "cycle" which she had borrowed from Mr. Munch. She had driven a "cycle" for three years.

She stopped at the Snyder boarding house the night prior to the accident and at the time was going to Highland with another boarder and his son in the side car.

The accident, she testified, was caused by Mr. Terwilliger driving his Ford car from his driveway on the roadway in front of her "cycle." She was watching the truck which was approaching and suddenly was confronted with the Ford car which had been driven from the driveway to the road. The front wheels were on the roadway. She was about 15 or 20 feet away at the time and applied her brakes but could not prevent the accident. Her "cycle" was traveling at about 35 miles an hour. There was a crash and she was rendered unconscious. When she came to, she was lying on the grass and someone was pouring water over her face. Her arm was broken and she was injured about the hands.

She seeks damages under a counterclaim. Her testimony was that she was employed at the time earning \$31 a week and that she was unable to return to work. She and Mr. Munch were married on September 20 and it was not until January she was able to return to work.

Mr. Munch seeks damages to the extent of \$209.75 for the "cycle" which was damaged in the crash.

Dr. Terwilliger claims the accident was caused by the negligent operation of the "cycle" and testified that his car had not reached the roadway but was standing still in his driveway when the "cycle" left the road and ran over his lawn and crashed into his car.

A. W. Lent and Mr. Rorty appeared for plaintiff and Frank W. Brooks for the defendant.

THREE MEN STABBED TO DEATH DURING DISORDERS

Budapest, Hungary, Dec. 7 (P).—Two days of disorder, during which three men were stabbed to death, many persons injured and several buildings destroyed have occurred in the town of Nagyvarad, Rumania, near the Rumanian-Hungarian border, reports from the frontier state.

The demonstrations were at first directed against the Jews and then against the Magyars. Nagyvarad formerly belonged to Hungary but is now annexed to Rumania.

The first disorders occurred Sunday and are said to have been comparatively unimportant. On the following day, however, they developed into somewhat bloody conflicts with the result that citizens were afraid to leave their homes.

Will Come on Rhinebeck Ferry and Royal Welcome Awaits Him—Candy for Children Has Arrived and Every Child Will Get a Package—Children Will Parade.

Santa Claus will arrive downtown on Saturday afternoon on the 2:15 ferry and will be given a royal reception by the children of the city. The candy which Santa Claus will distribute free to all children he has sent on in advance and it has arrived here and is awaiting him. There is such a large quantity of it that he could not possibly carry it with him.

The children are all asked to assemble at Broadway and McEntee street on Saturday afternoon at 1:30 and parade behind a large and industrious band of music to the ferry to meet and greet Santa Claus. On his arrival they will escort him around the lower part of the city and at some stage in the parade will pass through the arcade of the National Bank, where the candy will be distributed. An ample force of policemen will be on hand to regulate traffic and keep the procession in line so that every child will get its proper share of the candy and there will be none of the disorder that occurred a year ago, when the candy distributors got many packages of candy while others got none. The supply of candy has been increased this year and there will be ample to meet all legitimate demands.

ANTI-FASCIST CONVICTED OF SECOND DEGREE ASSAULT

New York, Dec. 7 (P).—A shooting affray last January, growing out of quarrels between alleged members of the Fascisti and anti-Fascisti, resulted today in the conviction by a jury of Mario Gilletti, an anti-Fascisti, charged with second degree assault. He will be sentenced December 15.

Gilletti was accused of shooting Carmine Di Giacomo and Vittorio Di Bari after an altercation in the Bronx. Neither was seriously injured. Di Bari is now Italy.

Gilletti, who is 20, took the stand in his own defense and produced witnesses to the effect that he was in Rochester with his sister at the time of the shooting.

Harley Avenue Property Owners Claim Fred Van Demark Has Placed Garage on Near Sidewalk As to Make it Objectionable.

Several interesting questions were presented to the Zoning Board of Appeals at its session at the Municipal Building on Tuesday. Judge Clearwater, the president, presided. Commissioners Watts and Lowe were in attendance.

Walter J. Miller, representing a number of property owners on Harley avenue, west of Taylor street, appeared and stated that some time ago the Zoning Board had modified a decision of the board of public works, denying the application of Fred Van Demark for the erection of a private garage on the avenue west of Taylor street, that the Zoning Board held Mr. Van Demark could erect a private garage on his property provided it was constructed within the provisions of the ordinance relating to the construction of garages, and was approved by the board of fire commissioners, and not to be used commercially. Mr. Miller stated that Mr. Van Demark had proceeded with the erection of his garage but had placed it so near the sidewalk as to make it objectionable to the residents of the neighborhood, and had indicated that he intended to use it commercially. Mr. Miller said that he, as counsel for the residents of the neighborhood, now asked the Zoning Board to rescind its permission to Van Demark, and to grant an order staying the erection of the building he proposed to erect.

After consultation between the members of the board, Judge Clearwater stated that they would not rescind the permission they had granted; that they felt they had no power to grant a stay of proceedings upon Van Demark; that, however, they were unanimously of the opinion that such garage as Van Demark constructed must be used as stated in his appeal to them as a private, not as a commercial garage, that it must be constructed within the building line prescribed by the city ordinance for such structures, and must have the approval of the board of fire commissioners. The judge said that the Zoning Board were of the opinion that if Van Demark by the board of public works, or the city as a corporate body could obtain from a court of equity an injunction restraining him from conducting a commercial garage, and mandamus compelling him to remove any structure he had placed upon the property contrary to the exact permission which had been granted.

The judge added that the Zoning Board had no intention of permitting an indefinite extension of any rights which it granted in reviewing decisions of the board of public works; also that in case Mr. Miller's litigation in a court of equity and were met by the objection they had elected their remedy by an application to the Zoning Board, Mr. Miller might state to that court that the Zoning Board did not regard the present application as an election of remedies.

Eveless Eden At Wonderly's

"Can a man keep a secret?" Mr. Wonderly wonders and has arranged to give the men of Kingston and vicinity a chance to demonstrate Friday evening, from 7 to 9:30. The Wonderly store will be an Eveless Eden, with only men salesmen and only men permitted to enter the store and do shopping. This is designed to for once give the men a chance in a department store to shop without the usual embarrassment and to purchase surprise gifts for their various "hers" without having some other "her" who cannot initiate the intended surprise. There will be no "her" to observe and report, so if there are any secrets told of the Wonderly-men-only shopping, night it will be a man who has not kept the secret.

Budget Message Sent to Congress By the President

Stresses Necessity For Limiting Prospective Tax Reduction to \$225,000,000—Largest Item Is For National Defense—Cautions Against Action Which Might Jeopardize "Balanced Budget."

Washington, Dec. 7 (P).—Presenting a budget of \$4,255,793,755 for the next fiscal year to Congress today, President Coolidge stressed the necessity for limiting the prospective tax reduction to \$225,000,000, as recommended by Secretary Mellon. In his letter of transmittal he also cautioned against any action which might jeopardize the "balanced budget" of the government.

The total appropriations recommended by the President exceed last year's budget by \$244,222,641, and the amount actually appropriated by Congress for the current year by \$118,642,319.

The President advised the House and Senate, however, that a supplemental appropriation of \$153,441,635 would be needed to meet deficits incurred by various government agencies this year.

The largest item in the new budget is for national defense, an appropriation of \$645,000,000, as compared with a total of \$625,000,000 available this year, being advocated.

The increase is accounted for mainly by the Navy Building program, army housing and a continuation of the five year aviation program for the army and navy.

A reduction of even \$225,000,000 in taxes, Mr. Coolidge emphasized, is dependent on "continued economy, surplus, and rigid government economy." He explained that the estimated surplus for the coming fiscal year is \$252,540,000 of which \$75,000,000 is from non-recurring sources.

Flood control and other projects not yet acted upon by Congress are not provided for in this estimate, he explained, and "it is reasonably certain that some of them will be enacted into law." Adequate flood control, he added, "meets the requirement of absolute and urgent necessity."

Keeping Expenditures Down.
"The assurance that federal expenditures will be kept within federal receipts," the President declared, "has bulwarked public confidence. It has contributed measurably to the prosperous condition of the country. It has ministered to the justifiable pride of our people in their government and in its orderly and sane processes."

"To jeopardize our balanced budget, to do anything that in the most remote degree would threaten to interfere with the orderly processes of wise financing, to take steps in the interest of tax reduction that would necessitate either revolutionary curtailment of federal projects and activities or compel a later upward revision of tax rates, or both, is unthinkable. I am convinced the people of this country are overwhelmingly in favor of keeping the budget balanced and are just as overwhelmingly opposed to any measure or measure that would make any other results even remotely possible."

Increase Navy Expenditures.
If the budget recommendations are followed, Navy expenditures for the next year will be increased \$45,000,000. This includes provision for prosecution of work on all projects authorized by Congress with the exception of three submarines and twelve destroyers authorized in 1916 for which Mr. Coolidge said no funds are desired now. Under this program two submarines and eight cruisers would be under construction next year and two of the cruisers would be practically completed in 1929. Funds also are recommended for modernization of the battleships Oklahoma and Nevada and for the lighter-than-air ships, already authorized by Congress.

Slight Increase In Army.
For army housing, total of \$13,251,699 is recommended for expenditure during this and next year, about half of it being included in the supplemental estimate. The army expenditures contemplate a regular army of 115,759 enlisted men, slightly larger than the present with 12,000 officers, the same as now.

Recommended appropriations for the army and navy air services would give the Navy 500 of the 1,000 planes provided by the five year program and the Army an estimated number of 1,100 airplanes authorized for it at the end of five years. Also, funds would be available during the next year to complete more than 10,000 miles of lighted airways as contemplated.

Work of Political Commission.
Speaking of the work of political committees, the President said: "One of my chief desires is to greet you at the White House in a privilege of expressing to you in a somewhat formal way the appreciation I have for the work which you have done for the country. It is done by political committees. For many years I have been a member of the City Committee of Northampton, and

Hughes Not A Candidate

New York, Dec. 7 (P).—Charles Evans Hughes, former secretary of state, issued a statement today saying he was not a candidate for the Republican nomination for president.

"I am not a candidate in any sense," said Hughes. "I am keenly disappointed by Mr. Coolidge's decision, but so far as my own attitude toward the candidacy is concerned, I stand by the statement I made last May. I have nothing to add to it."

In his statement last May Hughes said: "I do not wish my name to be used in any contingency. I am too old to run for president and I would neither seek nor accept the nomination."

SHARP RESSIONS AT STOCK MARKET OPENING.

New York, Dec. 7 (P).—Sharp recessions in many of the important issues, ranging from \$1 to \$4 or more a share, occurred at the opening of the stock market today.

The selling was attributed to the market's reaction to President Coolidge's reiteration of his intention not to be a candidate next year, and perhaps to some fears that shipment of \$1,000,000 gold to England might be followed by other transfers and lead to higher interest rates.

STRAND BEING DECORATED WITH CHRISTMAS TREES.

Decorations for the great Christmas celebration to be held by the Downtown Business Men's Association Saturday, December 10, are being completed rapidly. This morning the strand was lined with Christmas trees, placed in front of the stores, the proprietors of which are members of the association. The trees will remain in place on the thoroughfare until Christmas eve when they will be given to needy families by the Downtown Business Men's Association.

**INVENTS LOCK TO
FOIL BANK BANDITS**

Presents Instant Seizure and
Quick Getaway.

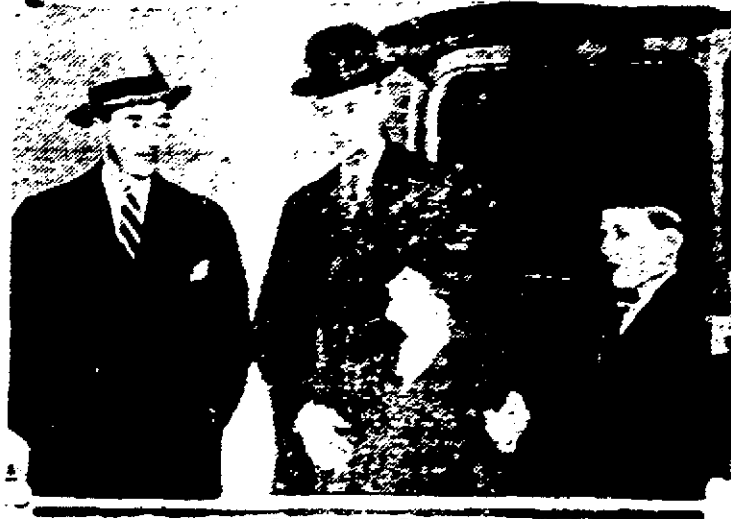

New York—A system for frustrating robbers by delaying bandits until the police arrive is to be introduced in bank vaults throughout the country. It was announced here recently by the Sargent & Greenleaf company, whose president, W. R. Hill of Rochester, N. Y., has invented a device known as the "time-lag" lock. With the new principle of lock operation each door cannot open until a predetermined time after the combination has been released.

The time-lag lock—a combined time and combination lock—can be set for any period from 10 minutes to 72 hours. Thus, almost instant seizure of funds and a quick getaway in a hot automobile—the bold procedure of the modern raid—are to be met by overcoming the advantage of speed, upon which criminals depend for their success.

Under the system outlined by Hill, banks and brokerage houses would have their vaults set to open for brief intervals at various times during the day, when enough cash could be taken out until the next opening. In the event that bank officials were compelled to open the combinations of the vaults, a predetermined time interval would have to elapse before the doors could swing open and give access to the vaults.

The same principle is to be applied in the transportation of large sums of cash in heavy chests equipped with time-lag locks so they cannot be opened for several hours.

A questionnaire to police chiefs throughout the United States and in European capitals, Hill said, con-

firmed his belief that in bank robberies, as in fires, the first few minutes are more important than the succeeding hours or days in the prevention of robberies and apprehension of the criminals.

Mentally Deficient

The American Association for the Study of the Feeble Minded defines the classes of mental defectives as follows: Idiots, mental age below two years; imbeciles, mental age from two to seven years; morons, mental age between seven and twelve years; subnormal variety, mental capacity slightly above the average custodial case.

Fire Damage May Reach \$75,000

Estimate of Damage in Stock & Cordis Fire Placed Between \$50,000 and \$75,000—Business of Furniture House Uninterrupted.

The fire that gutted one of the buildings of the big furniture house of Stock & Cordis on lower Broadway early Tuesday morning caused a damage estimated at between \$50,000 and \$75,000 although the definite figures will not be known until it is possible to check up on the loss to the stock and building.

The fire, according to Fire Chief Joseph L. Murphy, originated on the second floor of the former Huber building which was occupied by the House Beautiful. Indications are that the fire started in about the center of the House Beautiful and shot upwards to the third floor where it was somewhat checked by the tin roof and then mushroomed back, eating its way down into the interior of the building.

The cause of the fire is unknown. The main building of the furniture house was not damaged by the fire and business continued as usual today as an exceptionally large stock of house furnishings of all descriptions is carried in the main building, which was erected in 1892 following the big fire that swept the furniture house in 1891. This is the large building, farthest up the Broadway hill and is four stories in height.

The former Huber building is located farthest down the Broadway hill and was three stories in height. The furniture house is in reality three big buildings thrown into one large building by connecting doors. These doors are what are known as fire doors and can be closed, preventing fire from working its way into the adjoining buildings.

Owing to the fact that Stock & Cordis carried one of the largest stocks of furnishings in the Hudson river valley the patrons of the firm will be able to supply their needs from the large stock that was not damaged by fire, smoke or water.

The former Huber building is practically a total loss, together with its contents.

Society Notes

Bashall-Markle.

Thomas Bashall and Miss Gladys J. Markle, both of 106 Pearl street, were married December 6 by the Rev. Louis M. Cusack of St. Joseph's Church. They were attended by William Sweeney and Miss Elizabeth Deltz.

Lowell Club.

The Lowell Club met on Tuesday afternoon at the home of Mrs. D. S. Baker's interesting and interesting paper on "Clemenceau" was read by Mrs. Hale, while Mrs. Delaune read a valuable sketch on "Clemenceau", prepared by Mrs. Lewis. The roll call was Current Events. Next Tuesday the club will meet with Mrs. Brigham.

A Surprise Shower.

A most enjoyable and pleasant event was the surprise party given by Miss Anna Hickey of Milton and Miss Dorothy Doyle of Newburgh, at the home of the former in Milton in honor of Miss Marguerite McGuire of Newburgh on Saturday evening, December 3. A miscellaneous show was given Miss McGuire by her girl friends, many useful and beautiful gifts being received, after which a social evening was spent. Among those present were the Misses Alleen Loney of Tarrytown, Loraina Willets of Mamaroneck, Lauretta Doran of Poughkeepsie, Dorothy Hickey of Montclair, Mildred Doyle of Newburgh, Marguerite McGuire, Helen Caut, Marie Cubbard, Elizabeth Kaley, Mary Miller, Ethel Collins, Winifred Driscoll, Julia and Mary Conroy, Margaret and Alice McDonald, Anne and Emily Hickey and Mrs. M. J. Hickey, Messrs. Daniel Murphy and D. J. Saunders of Fordham, Professor Rampone of New York, Edward McGowan, Francis Kaley, James Driscoll, Richard Cubbard, William Collins, Thomas Gavin, John, M. J. and Vincent Hickey. Professor Joseph Rampone of the Jerome Remick Music Publishing Company furnished music and Miss Loraina Willets, soloist, of Mamaroneck rendered many selections. A delicious luncheon was served, the dining room being artistically decorated in orange and brown.

WILL ROGERS HAS ANOTHER HANDLE ON HIS NAME

Mexico City, Dec. 7 (AP).—Don Guillermo Rodriguez, who was satisfied to pass in the United States simply as Will Rogers, has tacked another handle on his name, dispatches from San Luis Potosi say.

President Calles, whose guest the American humorist is, on a tour of Mexico, said to Rogers in Spanish, "You and I are cuates." Cuate is slang for twin and equivalent to the English "pal." Rogers forthwith became Don Cuate Guillermo Rodriguez.

During his stay in Mexico City Rogers will be the guest of Ambassador Morrow.

An All-Day Quilting.

The Home Missionary Society of the Clinton Avenue M. E. Church will hold an all-day quilting on Thursday at Epworth Hall. Following the dinner there will be a business meeting in the afternoon. Each lady is requested to bring a piece of linen for Aken Hall.

LAST NIGHT on the RADIO

Reception Tuesday evening was not so good. There was weakness and fading, probably due to static, which made itself heard after 5 o'clock. There were no local interferences.

The greatest musical competition ever brought to a successful conclusion—not only in the liberality of the awards which were the goal of the 50,000 singers who took part in its preliminary series of contests, but in its far-reaching effect on the music consciousness of the American people—has narrowed to ten finalists who will sing next Sunday evening December 11, over W.E.A.F., New York city, during the regular Atlantic Kent Radio Hour. These finalists will go on the air at 9:15 o'clock, eastern standard time, taking the place of grand opera idols and renowned concert artists. Their appearance will be the crowning event of a great national program conceived with the aim of finding the best unknown radio voices in the land.

Kingston S. and L. Meeting.

SAUGERTIES

Saugerties, Dec. 7.—Clayton Stahl of Schenectady spent the past week end with friends in this village.

Three churches of this village made their yearly every member canvass last Sunday. The reports from the committees were very well spoken of and the results were gratifying.

The Saugerties Bank is displaying the first decorated Christmas tree in this place, which is drawing the attention of the public. This bank started the Christmas Club plan and is showing the real Christmas spirit.

Mr. and Mrs. William Voerg and family of Washington avenue have gone to Florida, where they will spend the winter.

John Mackin, Sam Irving, Walter Crome and George McClure, all colored and from Glasco, were brought before Police Justice Gardner last Saturday afternoon on a charge of assault. After hearing the case all were discharged but McClure, who was fined \$10.

Julia Smith of Partition street was operated upon for the removal of her tonsils last Saturday by Dr. Luther Emerick, assisted by Dr. Krom.

Henry Miller of Russell street is acting as court officer at the December term of the Supreme court at Kingston.

Miss Dorothy Van Gaasbeck of the Saugerties Savings Bank has been appointed notary public by Governor Smith.

Coasting on the Partition street hill has been prohibited by Police Captain Richter and all who violate the law will be punished.

Mrs. George B. Snyder, who has been quite ill at her home on Prospect street the past few days, is somewhat improved.

Mr. and Mrs. E. V. Wilber of Barclay Heights are making plans to spend the winter at the Island of Trinidad.

The Misses Florence and Evelyn Baker of New York city spent the past week end with their grandparents, Mr. and Mrs. I. Lazarus, of Main street.

Edmund Burkans, who has been confined to his home on Main street on account of injury, is able to be out again.

The Chain Circle of the Congregational Church will meet at the home of Mrs. Howard Post on Clermont street Wednesday afternoon.

The Women's Missionary Society of the M. E. Church will meet at the home of Mrs. William T. Ryer on Livingston street Wednesday evening.

The Saugerties Monday Club met at the home of the Misses Lamb on Monday afternoon. Mrs. Grant D. Morse gave the subject for the day as Italy, which was very interesting to all who were present. The next meeting will be held at the home of Mrs. Morse on Ulster avenue, when the subject of "Forestry" will be the subject of the day.

The December meeting of the Parent-Teacher Association will be held on Thursday afternoon in the lunch room of the local high school. The speaker will be the Rev. John Neander, who will use the subject "The Challenge of the Child to the School and Church."

The barber shop of Philip Swilling in the Exchange Hotel block has been sold to Levi F. Ladd of Troy, N. Y., who has taken possession.

M. E. Donlon, the local coal and lumber dealer, has purchased a new truck for his business.

Mrs. R. F. Dierling, who has been visiting in New York city, has returned to her home on Market street.

Mr. and Mrs. Franklin Snyder and son of Elm street, who have been in Brooklyn on account of a death of a relative, have returned home.

Miss Maude Mifflord of Washington avenue spent the past week end in New York city.

Miss Gertrude Mann of Main street has secured a position at Cortland, N. Y., and has gone there to reside.

Olen Lattimer of Ames, N. Y., spent the past week end with her sister, Miss Mabel Lattimer of Elm street.

Mrs. E. A. Rising and daughter, Margaret, of Barclay Heights have closed their place here and will spend the winter at Kew Gardens, L. I.

The Rev. S. M. Mountz of West Camp is confined with a heavy cold to his home.

The Saugerties High School student body hit the high mark in the schools saving system when on Tuesday every student rang up 100 per cent in savings.

Mr. and Mrs. Christy Schoentag of the Saugerties-Kingston road have gone to Miami, Florida, where they will spend the winter.

William H. Raymond Lodge, I. O. O. F., held a social affair in their rooms on Main street Monday evening. The presiding officer being Arthur Bishop, the noble grand of the lodge. The program consisted of two speeches and an entertainment provided by a professional magician from New York city. Refreshments were served after the entertainment and cards ended the happy occasion.

Doctor Claims CAMPHOROLE Stops Agency of Rheumatism

How the New Discovery Brings the Marvellous Secret of a N. J. Doctor to Every Suffering Man or Woman.

Thousands are suffering from this horrible condition, which is easily cured by deposits in the joints. The reason for these deposits is because the blood flows more slowly, and the little spaces in these joints where the arteries end, and the veins begin, and under their part of the body. Therefore, the deposits in the blood are more liable to lodge in the joints of the shoulders, elbows, wrists, knees, ankles, toes, hands, etc.

CAMPHOROLE, the new powerful purifying treatment of Dr. Briggell's is rapidly absorbed in these areas and aids the joints in driving out these deposits that cause you trouble. From the first application of CAMPHOROLE you will feel a soothing, bracing sensation as it penetrates the tissue, drives deep into the joints, easing the trouble, stimulating circulation.

Moon's Changes

Every month the moon goes through all the changes in the amount of day in her rising from the smallest to the largest, but ordinarily these are not taken special account of. As the sun and full moon must be in opposite parts of the sky, autumn is the season when the full moon and least retardations come together.

The lighthouse authorities of France have developed a tentative project for 32 radiobeacon and radio fog signal stations for the better protection of the French coast.

How Youngsters Grow

Most girls grow to taller after sixteen. Boys often increase in height until they are twenty. Tennis and swimming, owing to the stretching of the muscles, are the best height-increasing exercises.

Bandits Rob and Kidnap Watchman

Poughkeepsie, N. Y., Dec. 7 (AP).—Charles Dorn, watchman at a filling station of the Gulf Refining Company on Main street in the eastern end of Poughkeepsie, was held up early yesterday by two unidentified bandits who rifled the till of \$22 and then kidnapped Dorn, carrying him in an automobile to Hyde Park where they threw him from the car and sped on. One of them had two pistols and the other, one. The bandits had a start of almost two hours on the police and state troopers who were called in when Dorn reached the outskirts of Poughkeepsie and notified the police.

A milkman entering the gas station as was his custom about 15 minutes after the bandits departed with Dorn saw pennies on the floor and the till open but failed to realize what had happened and went his way. No trace of the holdup men has been reported.

World's Largest "Port"

The Port of New York is a district created by compact or treaty, between the states of New York and New Jersey and comprising the territory within a line drawn from Port Chester, across through White Plains, over to Yonkers, across the Hudson river to Piermont down on the New Jersey side, passing beside Passaic and Paterson and taking in the industrial territory west of and including Hoboken, Jersey City, Newark, all the way to South Amboy, across again to the New York side, taking in the complete area of the city of New York. The population of the port district is approximately 9,000,000.

Subtle Color Schemes

There is a revival of interest in artificial flowers for street wear. One of the most charming combinations consisted of a large bunch of violets dyed a pinky beige and worn with sheer silk stockings the exact shade of the flowers. These violets now come in a number of shades of beige and fawn and gray.

Judges Named For Santa's Parade

Men Selected Who Will Award Prizes
for Best Decorated Floats in Pa-
rade Which Will Escort Santa
Claus Up-town on Saturday.

A number of fully decorated floats
will form a part of the parade which
will escort Santa Claus when he ar-
rives in Kingston Saturday morning
on the 11 o'clock West Shore train
and starts his triumphal march up-
town where he will be a guest of the
downtown merchants until Christmas.
The parade will be headed by a band,
and judges will review the parade and
select the prize winning floats.

The judges who will judge the dif-
ferent floats and award the prizes
are: Ralph Cohen, Capt. Everett
Fowler, F. P. Coons, Captain Kilg-
house, William C. Shater. The judges
will be stationed at the Community
Christmas Tree on the court house
lawn and review the parade as it
passes.

To the winner will be given \$15,
second prize will be \$10, and third
prize \$5. These prizes are being of-
fered by the downtown merchants and
will be awarded to the float which in
the opinion of the judges is best de-
corated.

The community tree on the court
house lawn is now in place and was
decorated and lighted for the first
time Tuesday. The tree is a well
shaped evergreen, decorated with a
large number of red and green lights,
and presents a very pretty picture.
About this tree the community cele-
brations will be held and the old time
custom of singing Christmas carols
about the tree will be revived.

Earned Their Nickname

The Highland regiments in the
World War were nicknamed the "Lad-
dies from Hell" on account of the
kills they wore and their remarkable
fighting qualities. The term was
coined by the German newspapers
and adopted among the German
troops on the western front.

AMAS DINNER FOR FIVE COSTING \$8.50

Chicago, Dec. 7 (AP)—An average Christmas dinner for a family of five this year will cost \$8.50, J. Frank Grimes, president of the Independent Grocers' Alliance of America, has told that organization, but he adds that if the woman of ten years ago had tried to prepare it at prevailing prices, it would have cost more than \$12.

"The American woman is getting to be a little too much for us," he remarked. "She has learned to dress up the less expensive foods so that they look and taste better than the most costly."

One of the dinners for five costing \$8.50 follows:
Roast turkey, with dressing,
mashed potatoes, whipped squash,

giblet gravy, finger rolls, apple, celery and nut salad, cranberry jelly, crab apple pickles, fruits, pumpkin pie and coffee.

AMERICANS MOST PRODUCTIVE RACE

Labor Department Solicitor
Gives Workers Credit.

Chicago—Americans today are the
most productive people of any coun-
try or of any age in the world, enjoy-
ing high standards of living and em-
ploying to great advantage to the
laborer and to the country as a whole
machinery to an unprecedented de-
gree, Judge Theodore G. Riley, so-
licitor of the Department of Labor, de-
clared.

"The world realizes more than ever
that labor is the creator of all wealth,"
he said. "In the depths of the mine,
in the gold of the harvest, by the
thrilling engines, the flaming fur-
naces, the whirling spindles and on
the foam-crested seas labor creates
and produces the products of neces-
sity, comfort and beauty that are es-
sential to feed, clothe, support and
better mankind."

"The United States is enjoying re-
markable industrial and economic
prosperity while other nations are
struggling to meet the problems of
unemployment and economic depres-
sion," said the speaker. One of the
surprising achievements of modern in-

dustrial history has been the rapid
process by which this country has re-
covered from its disturbed and de-
ranged social, industrial and economic
conditions following the World war,
he said.

"The re-employment of several mil-
lions of unemployed laborers and the
maintaining of a wage scale practically
equal to, and in many instances
greater than, that of the war scale is
regarded by other countries as little
less than a political phenomenon," the
speaker continued.

In discussing the vast number of
legislative enactments and proposals
affecting labor of this country, Judge
Riley declared that the objects of
such labor legislation should be the
safeguarding of the rights and the in-
terests of the laborer, the conserving

of his health, and to afford him oppor-
tunities which enable him to live in
comfort and respectability, properly to
educate and rear his family and to en-
able him by thrift and industry to lay
by enough to care for his family and
to make off the haunting fear of per-
verty in old age.

These Simple Thoughts:

A beauty specialist assures us that beautiful thoughts make for beauty of both face and form. What a horrible thinker a gorilla must be!—San Bernardino Sun.

Derived From "H-U-V"

The word "hello" is a variation of "hollo," which had been in use since 1605 at least. "Hello" gradually took its place and came into literary use about 1880.

Value of High Thermal

The contemplation of celestial things will make a man both think and speak more sublimely and magnificently when he descends to human affairs.—Cicero

Hardy Ernst

Deciduous fruit is fruit that is borne on trees that shed their leaves in the fall. They are usually hardy or semi-hardy and belong to the rose family.

WHAT A ONE CENT SALE IS

It is a sale where you buy an item at the regular price, then another item of the same kind for one cent. As an illustration: The standard price of Klenzo Dental Creme is 50c, you buy a tube at this price and by paying 1 cent more, or 51 cents, you get two tubes. Every article in this sale is a high class standard piece of merchandise, just the same as is sold every day at the regular price.

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full size package of high standard merchandise for 1 cent. It costs money to get new customers, but the sacrifice in profit is justified, knowing the goods will please you.

Don't Fuss With Mustard Plasters!

Don't mix a mess of mustard, flour and water when you can relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, and takes the place of mustard plasters. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, rheumatism, lamboago, pains and aches of the back or joints, sprains, sore muscles, cramps, chills, frost-bitten feet, colds of the chest (it may prevent pneumonia).

OUR DAILY PATTERNS.

5944

A New Two Piece Model Skirt and Tucked-in Blouse.

5944. The design may be made of one material, jersey, crepe or crepe satin, or the blouse may be of crepe or crepe de chine and the skirt of jersey or woolen.

The pattern is cut in 7 sizes: 34, 35, 36, 38, 40, 42, 44 and 46 inches bust measure. The blouse alone will require 2 1/2 yards of 32 inch material for a 38 inch size. The skirt alone will require 1 1/2 yard of 40 inch or wider material. The width of the skirt at the lower edge with plaits extended is 1 1/2 yard.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice.

Send 15c in coin or stamps to The Freeman for our up-to-date Fall and Winter 1927 Book of Fashions showing color plates, and containing 500 designs of ladies' misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

Velvet the Outstanding

Fabric of Autumn Mode

It is beyond question that velvet is the outstanding fabric of the fall mode. The Paris openings, writes a Paris correspondent in the New York Herald-Tribune, have favored it above all other materials and this predilection has been shared by both modiste and couturier. Velvet, as we know it today, is a lightweight, supple, soft stuff that is beautifully colored and may be softly draped, fine tucked or shirred; molded to the head or cemented together to make a becomingly soft brim. In fact, it will do practically anything that is asked of it. There are also lovely stitched velvets, gold embroidered velvets and pantomime velvets uniquely embossed into effects resembling flowers. There is no color that is not represented in dozens of shades, and no possible combination of colors that have not been tried out. For summer wear the colors were softly vivid, bright, but mellowed by a silvery sheen; but as the present season glides into the fall the chapeaux take on the shades of autumn—ruby reds, woody browns and gray-tinted blues like the misty November days. But never for a moment has the popularity of black and beige waned; they are the two distinctively smart colors and will still be of paramount importance.

Other soft, pliable fall hat materials are grosgrain and faille taffeta. These fabrics are made into exquisite little models of the sports variety and are exceedingly smart, but lack the softness and drapability of velvet. However, grosgrain comes into its own as a trim on velvet and felt hats in the form of bands, bows, brim edges, and is frequently combined with velvet in toques and cloches in the form of inserts, brim facings, or uniquely shaped geometric designs of various colors. Incidentally, trimmings in the present mode are more or less negligible.

Half Fur Coat Is Among Novelties of Season

Half a fur coat not only is better than half a loaf, but in many cases it is far more fashionable than a full coat. That is, if the coat is composed of no more than its collar. Some of the smartest fur garments now are made without collars and this lack is supplemented by large and expensive stoles or scarfs composed of two or more skins of beaver, fox, labor or sable. The new mole skin coats are in conventional designs to the waist, but from the waist to hem the skins are worked in the most extraordinary lightning flash and chevron designs.

French Shoe Vamps Are Longer; Like Yank Toes

The short-vamped shoes which French women have preferred for generations are gradually being supplanted by the American toed variety. Less pointed than new English last, but much rounder than they used to be, are the newest French shoes. Vamps gradually are lengthening, and French women's feet begin to look more like those of their American visitors.

Soft Bows and Flounces Lend Formal Note to Costumes Worn at Opera Matinee Opening

(Copyright, 1927, Metropolitan Newspaper Service, New York.)

At the Left—Steel Blue Crepe Romaine with Matching Velvet Skirt. Flounces are accompanied by a Velvet Hat and Glazed Kid Shoes of Matching Color. The Crushed Collar of Velvet Tied at One Shoulder is an Interesting Detail.

In the center, a Two-Piece Frock of Black Satin. Smart Features of the Dress are the Low Yoke and Raglan Sleeves—the Diagonal Neckline Terminating in a Large Diamond Pin—the Snug Hipline and Large Bow.

Next to it is a Version of the One-Sided Silhouette in Black Transparent Velvet; the Little Collar and Tabs are Faced with Pink. A Row of Silver Buttons Adorns the Front, and a Full Ruching Holds the Flounce on One Side Only.

At the Right—A Wrap of Transparent Velvet in a Yellowish Dust Color Has a Collar That Ties in a Large Bow at One Side and Drop Shoulder Seams Marked by Cording.

ELEANOR GUNN ON FASHIONS

Some Impressions of the Vionnet Showing, in Which Scarfs and Delicate Colorings Are Lasting and Pleasant Memories.

Paris—Vionnet, who is conceded to be a great artist, had few, if any, of a problem in geometry, all angles and intersecting lines, varied by a few circular flights. She has devised means of cutting long scarf ends in one with the blouse, and seems to insist that necklines be draped or at least be exceedingly soft and pliable.

Unlike the majority of the haute couture, she makes no special use of black. Her color range is soft, and her favorites are a light almon green, as peje as Nile green, and a most flattering shade of soft rose, one of the faded rose shades that always have an aroma of romance about them. She sponsors these colors, not so much for evening as for gala afternoons. For evening, white is her first choice, with periwinkle blue and a clearer green for variety.

Her coats seem everything a coat should be—plus. One regal garment was of matching velvet and caracul in a soft creamy beige. The velvet, being the back, was cut into a great V that tapered to the center of the shoulders, which were of caracul. Another coat, with a one-sided cape, banded with squirrel, had a great scarf of squirrel, which could be wound around the throat, the wide, diagonally-cut end falling over the shoulder to a level of the little one-sided cape.

A goodly number of the new cloth coats have capes, or cape sleeves. Many have collars made of one or two foxes.

Paris—On arriving in Paris, one is greatly impressed by the number of red dresses worn. Red hats, a dark, rich shade in felt, are also worn by chic women.

Drecol, Beer, and several of the big dressmaking houses are exploiting sapphire, flag, and even navy blue chiffon, lace and beaded dresses for evening.

The sports wear seen and worn is greatly inclined to shades of gray.

Angora is the smartest sports fabric, sweaters and jumpers fashioned of it being in the same tone as the skirt and jacket. Jackets are sleeveless, although this is scarcely apparent at first glance, so nicely do the

with covered frame, novelty clasp, and a large round monogram of cut-out letters on a solid ground. This bag is carried in leather, antelope, and velvet.

Dosens of raincoats, modeled after the trench coat of the British army, are encountered around Paris daily. They are very good-looking, but are a popular, not an exclusive, fashion.

Prized His Whiskers

Leo III was the first pope to start the world by the spectacle of a shave. Gregory IV issued a papal bull which made shaving obligatory upon all priests. It is said that one bishop, presented with the alternative of parting with his luxuriant and treasured whiskers or his bishopric, chose to give up the bishopric.

The soldiers fired on the woman's garden and shelled her pet.

From the breakfast table must come the energy that gets 70% of the day's work done

Morning energy is essential—at school, in business, and at home. For 70% of the important work of the day is crowded into the four morning hours!

To start the day right, a quickly-available energy-supply is needed. And more, it must be long-lasting it must "stand by" you till lunch-time.

That is why experts urge Mother's Oats. It is so well-balanced; 65% energy-material, 16% tissue-builder; vitamins, minerals, and the roughage that makes laxatives seldom necessary.

Thousands find they work more easily all morning after this rich, nourishing breakfast. Children progress faster at school—when not handicapped by listless mornings. Office work is speeded up. Housework proves less effort.

Your family will enjoy Mother's Oats, too. It tastes so good! rich as tender custards! Your grocer has two kinds; the regular kind you have always known and Quick Mother's Oats, cooks faster than toast.

INTERSTATE LONG DISTANCE TELEPHONE RATES

Effective December 1, 1927
Reductions in Rates to Distant Points.

To points about 400 miles or more distant the day station-to-station rates are generally reduced. The greater the distance, the greater the reduction. For example, from New York to San Francisco the basic station-to-station rate for three minutes is reduced from \$11.30 to \$9.00; from Albany to Chicago \$3.35 to \$3.00; from Syracuse to Denver \$6.75 to \$5.75; from Buffalo to Miami \$5.35 to \$4.50.

Many Evening Rates Reduced.

The evening rates (applying on interstate calls from 7 P. M. to 8:30 P. M.) between the points affected will be reduced to a level about half way between the night rates and the new day rates. The rates now in use after 8:30 P. M. will be held at approximately their present levels.

These new reductions will save the telephone users of the United States an additional \$1,500,000 annually.

The right is reserved to reject any or all bids and to accept whichever bid may, in the judgment of the Common Council, be most advantageous to the City, or to re-advertise or take any action relative thereto to which may seem to them right and proper.

Bids must be accompanied by a certified check for 2% of the amount of the bid, made payable to the Treasurer of the City of Kingston, N. Y. The checks of the unsuccessful bidders will be returned to them immediately upon the awarding of the contract, or on demand. In case of failure to sign the contract the certified check accompanying the bid accepted will be retained by the City of Kingston as liquidated damages for such failure.

The bidders whose proposal is accepted will be required to enter into a contract within five days thereafter, giving a Surety Company bond acceptable to the Common Council of the City of Kingston, N. Y., for an amount equal to the amount of the total of his bid. His certified check will be returned to him upon the signing of his contract.

Plans and specifications may be obtained at the office of the architect, Advance Building, Kingston, N. Y., on payment of

The Sandman Story

Martha Martin

STORY OF THE TREES

"AT THIS time of the year," said the Sandman, "the birds are eating the seeds of the red cedar tree. These trees are strange in their behavior. They will grow well in a new neighborhood, but they do not like to have many trees about them, and if other trees grow up about them they become discouraged and give up trying to grow!"

"So they are to be found, and the birds find them. But they're certainly fond of open spaces."

"The birds are also finding winter food in barks of trees where little eggs

"Thank You, Thank You, Mr. Moon,"
Said the Pine Tree.

of insects are hidden, and there are insects upon the fallen leaves.

"The ducks find insects on the water until the ice freezes over the water weeds in the deep parts of the streams."

"And now the winter trees are looking their best, for they know that they must look well in the winter time, too. The pines and hardwood trees tell their own stories."

"Many people can read them just as they would read the chapters of a book. There is a ring of wood around the stump for every year that the tree has lived, and from the width between these rings it can be told how much the tree grew when it was two years old or three years old, and

whether it had a good year or a bad year."

"The trees tell their stories just as so many of the different creatures do, and all we need is to study their language so we can learn their stories, for they are so very, very wonderful and marvelous!"

"The roots of plants and trees, too, have stories to tell of the work that they do."

"They never come above the ground, but they do their parts not caring whether they are seen. In fact, they like to hide their good works."

"They go their own ways, getting free from anything that would hurt them, and with their little root hairs curling themselves about the soil and growing and getting their root food."

"They know that there is air, too, in the soil and dampness, and in some wonderful way they do the work that Mother Nature has set for them to do without any fuss and as though it were no bother."

"But the more we see of it the more amazing it seems, and the more we want to marvel."

"Some of Mother Nature's children do not do as she tells them. There is the Mexican Bean Beetle about whom there has been a great deal of trouble, for she destroys crops and everything that is given to make the crops better she takes for herself."

"She is a relative of Lady Bug, but Lady Bug is not harmful and doesn't like to think that this relative of hers is so dreadful."

"But I must tell you more about the Pine tree and what he said to Moon as Mr. Moon looked down at him."

"Mr. Moon, you have seen me here for a great many years. You perhaps do not keep count of the years. You do not have to, for it doesn't matter what age the moon is, as the moon always looks about the same age!"

"Of course, you wear different suits, and when you're no longer a full moon, perhaps you're called an older moon, but you come back again as a young new moon, so I suppose that is why you do not consider the years."

"Therefore it doesn't matter how many years you have seen me."

"It matters," said Mr. Moon, "for I am always so glad to see you. I want to see you for many more years. That is why it matters. I like to count those splendid years!"

"Thank you, thank you, Mr. Moon," said the Pine tree. "But this is what I have to tell you. I love to be a winter tree, for in the winter time it seems that every one is fonder of me for being ever, ever green."

"And I like to be liked."

"Every one does," said Mr. Moon. "I've been shining for a good many years, and I know that."

How It Started

By JEAN NEWTON

"KNOCKING THE SPOTS OUT OF HIM"

THIS is an expression used very frequently in common speech in the sense of overwhelming superiority or a "walk-away" victory. Of late it has come into use to express punishment or chastisement, but it is with the meaning of showing superiority of skill and achieving an easy victory that it had its origin.

The saying comes to us from the days when every household had its firearms and even children were taught to use them. Marksmanship was the great accomplishment. And though William Tell was dared to shoot an apple off his own son's head, the usual test of much vaunted skill in this direction was to make the target a playing card and the man who could "knock the spots" out of this was admitted to be an expert marksman and an easy winner in any contest.

And so the expression has come down to us to be used in the broader application of unquestionable victory in whatever the matter may be that is under discussion.

Ireland's "Big Wind"

The "big wind" in Ireland in 1839 began before sunset one day and raged for 12 hours. When it finally subsided but previous little was left that could be blown over. It was not a tornado but a full gale. Some 200 houses were blown down and as many more burned as the result of fires started by the wind. Twenty persons were killed and over 100 drowned. The coast of Ireland and the western coast of England were strewn with wrecks. It is said that for hours no one could stand erect in an open field because of the force of the wind. To the Irish who survived it, the "big wind" was comparable to the great September gale, which our ancestors experienced, and to the "hissard" of 1838—Pathfinder Magazine.

Since Saturday night when the mysterious word "Stahnetupet-loawus" was announced in The Freeman and an offer of prizes made to the first thirty persons who solved the mysterious meaning and sent their answers in to the Uptown Business Men's Association in care of G. A. Flemings at the L. B. Van Wageningen Company store, over 500 answers have been submitted. By this morning the total number of letters received by Mr. Flemings was nearing the 600 mark and answers were still coming from distant points. The surrounding territory sent in its quota of answers and one letter was received from Oneida.

Just how many of the answers are correct will not be known until Monday noon when the answers are opened and the prizes awarded. All letters are being numbered as they are received so that everyone has an equal chance to win according to the time the answers are sent in.

Financial and Commercial

New York, Dec. 7 (AP)—Prominent reactionary tendencies developed in today's stock market. In commodity markets there was tendency to attribute the selling to President Coolidge's re-election that he was not a candidate for reelection, to the sharp drop in steel production last month and the further decline in the first week of December, but in banking quarters the news was expressed that the market was confined to reaction on technical grounds after its recent spirited advance. Early declines ran from 5 to 25 points in some of the high priced issues.

Not all of the day's news was unfavorable, however. A further advance of 15 points to 14.50 cents was announced for the price of export copper, call money renewed at 4 per cent instead of 4 1/2 and Secretary Mellon, in his annual report to Congress, characterized business as fundamentally sound and took an optimistic view of the future.

Steel shares were liquidated rather freely on reports that production had fallen to the lowest level of the year, although current inquiries indicate a substantial pick up after the first of the year. Midland Steel Products preferred broke 12 points, U. S. Steel common sold down 3 to 141, and loss of a point or more took place in the others.

Detroit sold off 6 1/2 points and numerous other high priced industrial, including Case Threshing, International Harvester, Radio, Green Canada Copper, American Machine and Foundry and Radio sold down 3 to 2 1/2 points. General Motors dropped 2 1/2 by early afternoon.

Science Turns Ash**Into Bank Notes**

London.—Science has added a new triumph to its evergrowing list. Bank notes reduced to ash powder by fire can now be deciphered.

Recently a man walked into the general post office with a tin box full of ashes, stating that \$2,000 worth of notes had been burned and he would like to have them redeemed.

Scientists were called in and within a few days were able to tell the denomination of the notes. The man was paid before two weeks more had passed.

Asks Murder In First Degree

May's Landing, N. J., Dec. 7 (AP)—Testimony given in the Lillendahl murder trial warrants a verdict of murder in the first degree against the widow of the victim and her sister's admiral, Prosecutor Hinkle asserted in his summation to the jury today.

Counsel for Mrs. Margaret Lillendahl and Willis Beach, the co-defendants, entered court in a group, laughing and chatting gaily. The faces of the jurors, too, were wreathed in smiles as the ninth and probably last day's session opened.

Nine year old Alfred Lillendahl, dead into court with a box of crayons as big as an artist's drawing board. The defendants entered Mrs. Beach went up to greet her husband. Mrs. Lillendahl was talking to her counsel at the time and the two women exchanged no words. Then they sat side by side, smiling a greeting to each other.

Prosecutor Hinkle immediately began his summation. He told the jury he asked for a verdict of guilty in the first degree with a penalty either of death or life imprisonment.

Volcano Causes 2 Pacific Islands to Be Made One

Dutch Harbor, Alaska.—News covering the recent volcanic disturbance in Bering sea reached here recently via the coast guard cutter Northland. The vessel visited Rogoslof Island to examine new formations.

The older rock mass is unchanged but the volcano has thrown up huge piles of broken lava several hundred feet high. One of these deposits of solid lava has raised a spit between Castle rock and Nepeck islands, so they are now connected.

Rogoslof is constantly emitting clouds of vapor. All sea birds have migrated south but countless sea lions haul out onto the newly formed island daily to enjoy the warm mists from the vapor clouds.

The union of the islands is the spot where McCullough peak sank 20 years ago.

Cold Wave in The Middlewest

Kansas City, Dec. 7 (AP)—Continuing with blizzard intensity in the Rocky mountains snow today brought another cold wave to the middlewest and southwest.

The blizzard, starting in Canada, moved across Wyoming to enter Nebraska and Colorado last night while parts of the Dakotas also reported heavy snow.

Temperatures in the middlewest and southwest dropped from sixties to the freezing point shortly after midnight.

Sub zero temperatures accompanied the blizzard in western Nebraska. The storm was heralded as the worst in years at Alliance, with two feet of snow blocking streets. Thermometers dropped to 18 below at Lincoln when the storm reached Nebraska last night.

While no loss of life was reported in the mountain region, several persons perished in Alberta.

Healthy Farming Industry Vital

In the Problem of National Defense, Declares General Pershing in an Address Before the American Farm Bureau Federation.

Chicago, Dec. 7 (AP)—Upbuilding and maintenance of a healthy farming industry is a vital element in the problem of national defense, General John J. Pershing said in an address prepared for delivery before the American Farm Bureau Federation today.

General Pershing declared agriculture must not be permitted to decline in comparison to other industries and that it is imperative to inaugurate a national policy to eliminate competition among farmers. It was his opinion that American genius could and would develop such a program.

Forming a part of such a program should be conservation of timber resources, solution of flood menaces, development of waterways, shipping and world markets, he said. Success of the last, he added, depended on the upbuilding of an ample, modern merchant marine under the American flag. The general also advocated adequate naval protection.

"To engage in boastful and unseemly naval competition would be deplorable. We should simply build up our navy to such a strength that our seaports and our ships of commerce would be assured of proper protection. Then and only then can our country maintain commercial independence in keeping with our place in the family of nations."

PORT EWEN

Port Ewen, Dec. 7.—At the communion service held in the Reformed Church Sunday evening, 17 members were taken in the church, 12 by confession of faith and five by letter of transfer. This was the first communion service held since the new pastor, the Rev. Philip Goertz, has been pastor. The service was largely attended and was very impressive.

At the recent fair and bazaar of the Ladies' Aid Society of the Reformed Church, \$291 was the amount cleared.

Through the kindness of Frederick Spinneweber, six people were privileged to attend the fair and bazaar of the Garfield Lodge, I. O. O. F., held in Ulster Park Tuesday night, the opening night. There was a large variety of fancy articles and two radios on exhibition and demonstrated by the firms handling them. There was a small attendance for such a beautiful night.

William Lynn and family have moved into the residence of Arthur E. Fronsfield on Green street.

Esopus Council, No. 42, Sons and Daughters of Liberty will meet this evening at 7:30 o'clock in their council room.

The Young People's Auxiliary of the Methodist Episcopal Church will meet Thursday afternoon at 2 o'clock at the home of Miss Mary F. Bishop on Broadway.

SUNDAY SERVICES AT FIRST BAPTIST CHURCH

At the First Baptist Church on Albany avenue the pastor, the Rev. Arthur S. Cole, will preach next Sunday morning on the topic, "How Things Hold Together." In the evening the sermon will be on Vachel Lindsay's masterpiece, "General William Booth Enters into Heaven." This poem is a very bold flight of the poet's imagination and gives expression to the gospel of redemption as exemplified in the work of the Salvation Army.

The poem has been set to music by one of our best composers, Sidney Homer. Harold S. Brigham has consented to sing this at the service. It is a difficult piece to sing, requiring an unusually sympathetic interpretation to bring out the author's message and meaning. This is the first time that this piece has been sung in Kingston, and all who can come, will look forward to Mr. Brigham's rendering of this selection.

Our Growing Population.

The following births have been reported to the board of health:
Mr. and Mrs. Albert J. Bowen, 61 West O'Reilly street, a daughter, Theresa Jacqueline.
